REPORT

**PATROL
OPERATIONS**

PATROL OPERATIONS

PATROL OPERATIONS OVERVIEW

In June 2025, Liberty State Patrol troopers logged a total of 269 hours of shift time. Of those hours, 202 were dedicated to patrol duties, 9 were dedicated to training events, and 58 were dedicated to administrative duties.

PATROL DUTIES

Troopers logged 202 hours of patrol duties this month. The patrol duties of troopers are comprised of calls for assistance from the community, which can range from 911 calls, alarms, disputes, domestic violence incidents, and traffic accidents to crimes in progress or a shots fired call. In addition, troopers also hold the responsibility of enforcing traffic laws, patrolling highways, investigating crimes, responding to mutual aid requests, and providing emergency response services.

TRAINING EVENTS

Troopers are encouraged to attend monthly trainings to ensure that they remain effective, responsive, and adaptable in a rapidly changing society. Training is also critical in preparing troopers to handle complex situations such as mental health crises, domestic violence, active pursuits, or active shooter scenarios. In June 2025, the Liberty State Patrol committed 9 hours to training.

ADMINISTRATIVE DUTIES

Members of administration committed 58 hours to their administrative duties this month. Their duties include but are not limited to; writing documents, holding administrative meetings, enforcing agency standards, guiding fellow troopers, and hiring new troopers. The administration team of the Liberty State Patrol is critical in ensuring the smooth operation and organization of the agency.

AGENCY RECRUITMENT

AGENCY RECRUITMENT

RECRUITMENT OVERVIEW

The agency began the month with 18 sworn troopers while it actively sought out new members.

In June 2025, the Liberty State Patrol received 6 applications for employment. After careful consideration and reviewal by administration, 3 of those applications were accepted. Following direct communication with the 3 candidates for the acceptance of their application, interviews were scheduled with 2 applicants and forwarded to administration. The third applicant backed out of the recruitment process and failed to respond to requests for an interview.

Both applicants successfully completed their oral interviews with administration and the interview board. Conditionally offers of employment were extended to current Trooper First Class Sukel Lollie and Trooper Tek Kashi. Both applicants underwent their required cadet and field training, and upon successful completion, both applicants became sworn troopers.

ADMINISTRATION

Thanks to efforts of administration, the agency successfully recruited 2 new troopers this month. The agency looks forward to improving its recruitment efforts through direct communication, transparency, and community outreach. In addition, the agency is expanding its recruitment efforts to civilian staff. While the agency hosts a substantial number of experienced troopers, it lacks services and support from civilian employees. The agency is looking to fill civilian positions such as dispatchers, support staff, media team, and records.

If you are interested in joining the Liberty State Patrol as a sworn trooper or civilian employee, please privately contact Colonel Ghost.

**TRAINING
REPORT**

TRAINING REPORT

TRAINING OVERVIEW

The Liberty State Patrol remained committed to providing necessary and valuable training to our troopers in June 2025.

Ongoing and relevant training is necessary for law enforcement to ensure that troopers remain effective, responsive, and adaptable in a rapidly changing society. Law enforcement practices, laws, and technologies evolve, and regular training helps troopers stay current with these changes. New tools, techniques, and legal standards require troopers to continually refine their knowledge and skills in an effort to make better informed decisions so as to continue maintaining public safety. Training is also critical in preparing officers to handle complex situations such as mental health crises, domestic violence, substance abuse, active pursuits, or active shooter scenarios.

CONTINUED EDUCATION

As these challenges become more prevalent, officers need specific tools and strategies to respond effectively and safely. Ultimately, ongoing training supports the safety and well-being of both law enforcement personnel and the communities they serve, fostering better outcomes for all.

As part of our monthly training program, the agency dedicated this month's training toward complex situations such as high risk traffic stops, active pursuits, and active shooter scenarios. In June 2025 the agency committed 9 hours to training.

FIELD TRAINING PROGRAM

The Field Training Program has been developed and implemented to properly train and indoctrinate new troopers through established guidelines and procedures. The agency requires that each new trooper satisfactorily completes a strictly controlled and evaluated Field Training Program. Upon successful completion of their entry application and oral interview, current Trooper First Class and Trooper Kashi were required to undergo Cadet Training and Field Training. The training programs include training on agency policies and procedures, radio communications and codes, emergency vehicle operations, patrol techniques, emergency response, DUI, crime scene investigations, criminal code, firearms training, arrests, report writing and processing, community interaction, traffic enforcement, and use of force.

**FLEET
VEHICLES**

FLEET VEHICLES

FLEET OVERVIEW

The Liberty State Patrol currently maintains a motor vehicle fleet of 29 vehicles as of June 2025.

FLEET CHANGES

The administration team has continued its efforts to return 3 Ford Explorers and 2 Ford F-150s which were stolen last month by a team of Chinese hackers working for the People's Republic of China, however, have been unable to contact the PRC. In response to the stolen Ford vehicles, the Liberty State Patrol has purchased 2 Dodge Durangos and 2 Chevrolet Silverados this month to replace the stolen vehicles.

Additionally, the agency purchased a new Dodge Challenger this month after the previous Challenger was totaled by Lieutenant Colonel Bob Call after he lost control during a pursuit, sending the vehicle into a river. As a result, the new Dodge Challenger has been reassigned to Lieutenant Jason Key.

Finally, the agency sold 2 reserve 2011 Dodge Chargers to the Liberty County Sheriff's Office this month due to their aging body and high mileage. Their intended use by the LCSO is to transport donuts from the Springfield Bakery to the Sheriff's Office.

SUMMARY

The Liberty State Patrol will continue to expand and modify its motor vehicle fleet in order to meet the diverse needs of troopers in a ever changing world with rapidly developing technology. The agency aims to ensure every vehicle is maintained to the highest standards. Agency mechanics continue to do an excellent job in maintaining, repairing, and outfitting fleet vehicles.

LIBERTY STATE PATROL VEHICLE INVENTORY
